Hi Wendy,

I'm not sure why Ann Campbell's message says the Region will be forwarding the package for the OA signature. We did not request to do this, so I'm not sure why we are not going through the normal process. Do you have in idea as to why Ann said the Region will forward the action for Administrator's signature? Has the process changed?

Dayana, Please take a look at the message in the concurrence, which states the Region will be forwarding this action for the OA signature. I will not want to send it forward to OP which is our normal process when you are planning to do so yourselves. Please clarify.

TO: THE IMMEDIATE OFFICE FOR REVIEW AND CONCURRENCE ON REGION 6 PACKAGE FOR THE ADMINISTRATOR'S SIGNATURE.

Please find attached "SAN 6979 Texas RH BART FIP" for the Administrator's signature (the FRL # for this action is **FRL-10010-52-Region 6**). The Region 6 Regional Administrator has signed the Transmittal Memo and concurred on the package. Attached you'll find the following documents:

- PDF copy of signed Transmittal Memo
- Federal Register Notice for Administrator's Signature
- Action Information Sheet

There is also a Response to Comments Document that Region 6 is still working on finalizing- this is a type of technical support document, and it does not get signed, it only goes in the rulemaking docket. Region 6 is still working on cleaning up this document, and will be sending us the final version as soon as they have it.

As previously mentioned, there is a separate but related Federal Register Notice of Availability (SAN 7964) that OAQPS is the lead for and that we need to coordinate to ensure that the two Federal Register notices (SAN 6979 and 7964) get signed by the Administrator on the same day, cc'ing Corey Mocka since he is the OAQPS lead for SAN 7964.

**REGION 6: Dayana Medina – 214-665-7241**
